Diocese of Caledonia now Fifty Years old---A Short Story History and Work

The Anglican Church commenced her work in Northern British Columbia over 70 years ago when the Church Missionary Society of London England sent out William Duncan, known and revered along the coast as Father Duncan, who eventually settled at Metlakatla to commence the great work among the natives. By the year 1859 the work had so developed in British Columbia as to need the oversight of Bishop, and the Rev. George Hills was consecrated bishop in Westminster Abbey, England, and arrived in Victoria in January 1860. By the year 1876 the work had extended into the northern interior as far as The Forks, now known as Hazelton, when the Rev. W. H. Collison, the Church Missionary Societies represented at Kincolth preached the first sermon in Hazelton. By 1879, fifty years ago, the work had grown so large and extensive in the Province that it was found necessary to divide The Diocese of British Columbia into two Dioceses. One situated at New Westminster in the South and at Metlakatla in the North. Bishop Ridley was therefore consecrated in England and sent out to become the first Bishop of the newly formed Diocese which was to be known as Caledonia. After a very exciting trip from England, Bishop Ridley arrived at Metlakatla and being desirous to get in touch with the White work as soon as possible he travelled along the Skeena by canoe as far as Hazelton where a service of Thanksgiving for his safe arrival was held on October 7, 1880. Hazelton therefore being the oldest mission in the interior it was decided that the Jubilee Celebrations should commence in Hazelton Deanery Chapter on June 26 and 27. To give you some extent of the Diocese, I might say that the Hazelton Deanery includes the following:

Commencing at Terrace under the care of Rev. Canon Marsh and Rev. A. W. Robinson who are also responsible for the Kitsumkalum Valley and 50 miles east along the Skeena to Cedarvale. Then commences the work of Rev. T. D. Proctor of Hazelton including Woodcock, Kitwanga, the Kitwano Valley and village and Hazelton assisted by Mr. Jas. Proctor at Kitwanga. This brings us to the Bulkley Valley under Rev. L. Hales at Smithers extending as far East as Topley and Easton. The lake country is under the care of Rev. J. H. Kerr at Burns Lake then we come to Headquarters of Rev. Rural Dean Sweetman at Endako, who also looks after Fort Fraser and Fraser Lake. This brings us to The Nechako Valley which is in charge of Rev. Mr. Steer with Vanderhoof as the centre. The work of the Deanery then jumps over the work of other Diocese and over the Rocky Mountains and takes in some 54,000 square miles in the B. C. Peace River Country at present in charge of Rev. Mr. Scott. This constitutes the Hazelton Deanery which is only one half of the Diocese. The other half being made up of the Prince Rupert Deanery under Canon Rushbrook which takes in Prince Rupert under Rev. J. B. Gibson, Seal Cove under Canon Rushbrook, the territory along the Nass, with Rev. O. Thorne at Kincolth, Alynash under Rev. H. Flores, Greenville under Rev. W. S. Cooper, Anylox under J. S. Brayfield, Stewart under Captain Bainbridge, Atlin under Rev. R. Manwaring, Tele-

graph Creek under Rev. Commander Hogson also Tait-Tan and Dease Lake Metlakatla under Mr. Chas. Morrison Ocean Falls under Ven. Archdeacon Hodson. Besides the above missions there are two Missions Boats which visit the canneries and pole camps, and mines and isolated settlers along the coast. The Northern Cross is in charge of Rev. Jennings. The Western Hope is responsible for ministering to the people of the Queen Charlotte Islands. Such has been the growth of the work during the past fifty years, until it now comprises about 250,000 square miles.

Bishop Ridley presided over the Diocese until 1904 when he retired and returned to England where he died in 1911. The late Archbishop Duvernay was chosen to be the second Bishop of Caledonia and was consecrated in Toronto in 1904 and after travelling over practically the whole of the Diocese from Prince Rupert to Vanderhoof on foot and seeing the G. T. P. put through to the Coast he laboured on until 1924 when he entered into Rest having completed 20 years as Bishop and during the later years as Archbishop. The Diocese then without a Bishop for four years owing to lack of funds, but by September 1928 an Episcopal Endowment Fund had been raised and Archdeacon Rix of Prince Rupert was consecrated as the third Bishop of Caledonia. Both the Bishop and all the men of the Hazelton Deanery except Rev. Kerr of Burns Lake, who was prevented at the last moment by being quarantined on account of measles, were present at the Deanery Meeting held in Hazelton. It was very fitting that Rural Dean Sweetman should be the speaker for the public service for it was just 18 years since he was ordained in St. Peter's Church to the priesthood, and he has labored all of that eighteen years around Endako and the Lakes Country seeing it grow from a pioneer state to real live towns surrounded with prosperous farming communities. Another outstanding member was Rev. Canon Marsh who has labored in the north for nearly forty years and has now retired. He was able to tell of the arduous trips which had to be made with dog sleighs taking months which now can be made comfortably in as many days by aeroplane. Supplies had to be ordered a year ahead owing to the fact that there was only one mail and supply boat a year. This was up in the MacKenzie River district where he established the Hay River Boarding School, the whole of the logs and boards had to be sawn by hand. When we think of such conditions we can consider ourselves to be living in luxury, and can well afford to rejoice that we have reached the Fiftieth Anniversary.

MIDSUMMER DANCE

To be held by the citizens of Hazelton in Assembly hall, Friday, July 19 at 9 p. m.

Come one, Come all

In Summer Dress or Overalls

Come in Anything at all

Help us to get a Community hall. Chappell's Orchestra in attendance.

Miss Woodward, R.N., of Vancouver has taken a position at the Hazelton Hospital to relieve for a number of weeks while the local girls have their holidays.

PRINCE RUPERT NEWS LETTER

Again, the railway hotel question. This time the wise crackers says its a go. On what is to be unsalable, even though it is not official authority, the statement is heard that the Canadian National system will build a hotel at Prince Rupert, to synchronize with the completion of the new coast liners, and the promotion of tourist traffic generally. The site one hears mentioned is on the reserve, overlooking the bay, convenient to the station and docks.

The Associated Boards of Trade convention, representing Central British Columbia was the event of the week in Prince Rupert. It was a pleasure for Prince Rupert to have the delegates: to swap ideas and proposals: to get together and in an informal fashion talk over plans and prospects. Even a little rain was staged, so that everybody could feel thoroughly at home.

The new province idea was placed in cold storage for awhile, after brief discussion, at the Associated Boards of Trade convention. The general feeling seemed to be that, lacking facts and figures, it would be premature, if not radical, to seek divorce proceedings. So, British Columbia as constituted, will worry along until the roses bloom again in 1930.

Prince Rupert is becoming a yachting centre. Most of the sea rovers hail from Seattle, or California, with now and then a stray boat from Vancouver. The visitors are welcome. They are rakish looking pirates, ice cream trousers, lots of gilt, caps worn at a jaunty angle, and a gait more or less reminiscent of the rolling main. As a rule the yachts fulfil ones' dream of what a yacht should be: something to be visioned, but not realized.

One of the happy features of the associated Board of Trade conference was the banquet to the delegates from out of town. Everybody brought along his appetite. There was a general co-operation in making a sad wreck of baked salmon and strawberry shortcake. In short, it was the sort of a dinner that did not last too long, and the same goes for the speeches.

A major operation was preformed at the City hall last week, when the city engineer, H. A. McLean tendered his resignation, effective August 1 and the same was accepted. Hard on its heels the suspension of the city foreman, Jack McRae, who, for some time had been the subject of complaints from rate payers. So there you are!

THANKSGIVING SERVICES

Thanksgiving services for the recovery of King George to health and strength will be held in St. Peter's church on Sunday morning at eleven o'clock. The hymns to be used will be the same as those chosen by the King for use in Westminster Abby where he will attend in person. This service is to be followed by the celebration of Holy Communion. In the evening at 7.30 service will be held at the usual hour. This being the seventh anniversary of the present rector's work in Hazelton an invitation is extended to all to be present.

Two Men Dead and One Other Charged With Man Slaughter in Car Wreck

Eno Ferner and Isak Karlson are dead and Davy Jones is in Smithers jail charged with manslaughter.

This is the result of a trip by auto from Smithers to the Duthie mine and return in company with a bottle of liquor.

Jones was driving a car under the authority of a license and took the two above mentioned men, and Elgot Bjornhofde for a drive up the mountain to the mine. They had apparently had some liquor before they left and at the mine they had some more out of the bottle they had along with them according to evidence at the coroner's inquest.

The party left Smithers about five o'clock on Saturday afternoon and all was apparently well until returning in the early evening. Coming down the mountain, with Jones at the wheel, all the switchbacks had been navigated and a straight stretch of road for 250 feet ahead. The car went off the side of this good piece of road and run on the side for 42 feet and then went over and down the bank a distance of 30 odd feet, turning over apparently once and partly over again. Ferner and Karlson were killed instantly, each having his neck broken. The others were not seriously hurt and were able to extricate themselves from the wreck and start for help. On the road they were picked up by McEwen, a driver for the Duthie mine, and taken into town where Sargt. Service of the provincial police was notified. Jones was immediately placed under arrest and Bjornhofde was held as material witness pending the inquest.

Dr. Stone was brought down from Endako to conduct the inquest which he opened Monday morning and adjourned until Tuesday. The inquest was finished Tuesday night and the jury came to the conclusion that Jones was driving the car and was under the influence of liquor and not capable of driving.

A charge of manslaughter was laid against Jones and he will appear on Monday for preliminary hearing. Bjornhofde was given his liberty after the inquest.

The verdict of the coroner's jury was as follows:—"It is the opinion of this jury that these men, Isak Karlson and Eno Ferner, came to their death between 7 and 8 o'clock on the evening of June 29, 1929, through the overturning of an automobile and being planned under on the Duthie mine road at a point about 3 1/2 miles from Smithers; the said automobile being driven by one David Jones. It is our conviction that the said David Jones, the driver of the automobile, was under the influence of liquor and not capable of properly handling the car at the time of the accident."

There have been a good many accidents, more or less serious, in the north, but this is the first time that deaths have resulted.

The Silver Cup mill closed down for the holiday and some of the men from the mine were also down.

Mr. John Sim representing the Crossman Electrical Co., the firm that supplied the Silver Cup with its electrical equipment, spent several days at the property last week giving the plant, the once over.

Omineca Chapter In Session two Days last Week

The first meeting in the history of the Caledonia Diocese of the Hazelton rural deanery was held in St. Peter's church, Hazelton, on June 26 and 27. The Bishop of Caledonia was present, with the Rural Dean, Rev. Mr. Sweetman, presiding. Rev. A. W. Robinson was elected secretary. Excellent papers were read by the members of the chapter. The one on Christian Unity by Rev. T. D. Proctor, rector at Hazelton, was outstanding for the amount of research work put into it and clearness of outlook. Canon T. J. Marsh, retired minister of Terrace, gave a very graphic description of the early days in the Hay River where he and Mrs. Marsh spent about 20 years pioneering.

Other papers read were "The final authority in religion" by Rev. S. C. Steer, the newly appointed incumbent at Vanderhoof; and "Our young people by Rev. L. J. Hales of Smithers. Rev. A. W. Robinson gave a paper on "Missions vs Materialism". The business of the chapter was carried out expeditiously under the leadership of the rural dean and much spirited discussion ensued.

The hospitality of the Hazelton people surpassed all expectations. On the first day of the meeting a sumptuous repast was given by the Women's Auxiliary of St. Peter's church under the leadership of Mrs. Dungate, Mrs. Sargent kindly gave her home for the occasion. Mrs. Sealy and Mrs. Myros entertained the company with vocal duets, and Mrs. Dungate with the piano. In the afternoon some of the clergy were taken to Kitseguia and saw that interesting Indian village.

The next day was spent in business of the chapter until five o'clock. The hosts were Mr. and Mrs. Sargent, Mr. and Mrs. Dungate, Mr. and Mrs. Myros, Rev. T. D. and Mrs. Proctor, while Mrs. Hogan and Mrs. Newick and Mrs. Whisby were luncheon hostesses.

The thanks of the deanery are due to all those in Hazelton who made the visit of the clergymen so enjoyable, and to Rev. T. D. and Mrs. Proctor.

New Ontario is In Control of Owen Lake Mine

Nonh A. Timmins, president of the Hollinger Consolidated Mines Ltd., of Timmins, Ont., is reported to have completed a deal under which he has secured controlling interest in the Owen Lake Mining Co. property from Frank H. Taylor. The sum involved is stated to be over a million dollars, and a first cash payment of \$150,000 has been made. Mr. Timmins plans to put the mine on a large scale production basis with as little delay as possible. The Owen Lake property comprises sixty-five claims carrying gold, silver and copper values. Taylor is said to have retained a one-fifth interest.

W. B. Dornberg will be back here on Saturday next.

NOTICE

Mining Company officials are asked to note the provisions of Section 10, "Mineral Survey and Development Act," which are quoted herewith, and govern themselves accordingly:

"(1) Where a corporation, other than a private company under the 'Companies Act,' acquires an interest in, or title to, or engages in work on any mining property situate in a mineral survey district, it shall forthwith notify the Resident Engineer of that district, and the Provincial Mineralogist, and file with them full particulars thereof, and shall also file with them, as soon as it is issued, a copy of every prospectus or statement in lieu of prospectus which is required by the 'Companies Act' to be filed with the registrar of Companies.

"(2) Where a corporation, other than a private company under the 'Companies Act,' issues, publishes or distributes, or causes to be issued, published or distributed, any pamphlet, bulletin, circular, advertisement, or publication relating to any mining property situate in the Province in which the corporation has any interest or on which the corporation is engaged in work, the corporation shall forthwith file a copy of the pamphlet, bulletin, circular, advertisement, or publication in the office of the Resident Engineer of the mineral survey district in which the mining property is situate, and shall also forthwith file three copies of the same in the office of the Department of Mines at Victoria.

"(3) If a corporation makes default in complying with any requirement of this section, it shall be liable, on summary conviction to a fine not exceeding twenty-five dollars for every day during which the default continues and every director and every manager of the corporation who knowingly and wilfully authorizes or permits the default shall be liable to the like penalty."

For information regarding British Columbia Mines apply to the Department of Mines, Victoria, B. C.
Special Bulletins, Annual Reports, etc., furnished free of charge on application.

Telkwa Tales

H. O. Glegrige, Consolidated Mining engineer, has rented the Dr. Paine house and will make Telkwa his headquarters for the season.

Miss K. Letchford arrived home for the summer. She has been attending St. Joseph's convent at Rupert.

School closed last Friday. Nine local pupils wrote their entrance exams, and five wrote the first year high.

All the school teachers in the country left in a merry bunch on Friday for their respective homes.

Sonny Mapleton is spending a holiday in Prince Rupert.

Mr. Leake of Dorreen is relieving W. M. Boyle at the telegraph office while the latter is on his holidays.

Mrs. Bussinger entertained a number of friends to tea on Friday afternoon last.

On account of rain many Telkwa people stayed at home although some went to Houston and some to Smithers.

QUICK NEWS

Those from Quick and Telkwa who attended the Houston picnic and sports report a good time accompanied by plenty of nice strawberries. Those who stayed for the dance had a job getting home on account of the rain, the first to really soak the roads.

Although the drillers lost the drill and it is stuck in the bottom of the hole, the water in Robt. McGregor's well is only one inch from the surface now.

Carl was thrown from his horse on Wednesday last and shaken up some what, but nothing to the way he shook the earth and caused earth-quake rumours to get started.

Born to Mr. and Mrs. Bolitho, a daughter.

Born to Mr. and Mrs. Flockhart, a son.

The rain on the First was a real wet rain and the crops will be materially benefitted thereby.

From Woodcock

Woodcock, Cedarvale and Kitwanga held their annual school picnic at this place on June 22nd and it was well attended and all report having had a good time. The sports were in charge of Rev. T. H. Wright and Rev. T. D. Proctor and occupied most of the day. The picnic was followed by a dance in the school house.

Win. Medd received word that his mother was critically ill in Prince Albert hospital and he left Monday evening to be with her.

James Wright arrived home from Smithers on Wednesday the 26th with a fine team for use in his cedar pole business.

Iola and Eva Medd wrote their grade 9 and entrance exams at Terrace last week.

Louie Patmore of Prince Rupert is spending his college vacation with W. C. Little on the farm.

Gen. J. W. Stewart was held up at the point of a gun and requested for a note for \$18,000. The General gave the note and the man left, but was followed out by D. McLeod who kept on the man's track until he saw a police officer and had him arrested.

TIN DISCOVERY IN BRITISH COLUMBIA

Report by Department of Mines Geological Survey

Considerable interest has been aroused by the discovery of stannite, a tin-bearing mineral, in a vein in the Snowflake deposit situated in the Revelstoke district of British Columbia. After making a brief examination of this property in company with the consulting engineer of the Snowflake Mining Co., Dr. V. Dolmage of the Geological Survey of Canada reports that the vein in which the stannite occurs is one of a number of large and persistent parallel quartz veins which can be traced for several miles along the steep mountain sides of this rugged district. It outcrops at elevations of 5,500 to 6,000 feet, 6 miles north of a point on the main line of the Canadian Pacific railway 20 miles of Revelstoke, and is reached by a good horse trail.

The veins occur in black, highly carbonaceous, in places graphitic, argillites. These are part of a thick series of quartzites, greenstones, argillites and limestones which occupy almost this entire region and are part of a still larger group metamorphosed to be Pre-Cambrian age.

These sediments are intruded by granitic rocks, two stocks of which lie 5 or 6 miles north of the tin deposits and one 8 miles to the south, and lit par lit injections of which lie within 3 miles or less of the deposit.

The presence in the area of so many intrusions of closely related, granitic rocks, strongly suggests the probability of the presence at considerable depths of a very large body of similar rock, of which the smaller intrusions are mere appendices and which was probably the source of the solutions which deposited the tin and other metals.

The main veins are parallel to the bedding of the sediments and vary from 3 to 15 feet in width. In all the veins the gangue mineral is quartz. The metallic minerals are pyrite, galena, stannite, chalcocite, tetrahedrite, scheelite, wolframite, ruby silver (pyrosulfide), chalcocopyrite and native silver. Chalcocopyrite and native silver are present in only minute quantities and are visible under the microscope. In the No. 1 vein on the Snowflake property stannite is present in almost all the exposed parts of the vein where other sulphides are present, and in the newest workings, extending from the long low-level tunnel, it is very abundant. In a raise, which at the time of the examination was up 80 feet from a drift east

of the main tunnel, it is more abundant than any of the other sulphides except pyrite. The vein in the raise is from 4 to 7 feet wide and in places it appears to contain as much as 10% or more stannite. At the time of the examination tin had not been discovered in any of the other veins of the district but since then stannite is reported to have been found in other veins on the Snowflake and also on the adjoining Regal Silver Property.

Leo. Waugh, manager of the C. N. R. commercial telegraph at Prince Rupert shipped his car to New Hazelton and on Monday arrived himself and started east on a motor trip.

An executive meeting of the P.T.A. was held Wednesday and decided on improvements to the school grounds.

Miss Alice Pillsbury left Saturday to visit her home in Rupert before going to Victoria to attend summer school.

Miss Barbara Holt of Copper City, left Saturday for her home in New Westminster.

Farmers' Institutes Met In its Annual Convention Many Delegates Present

This meeting was held on June 20, at Telkwa, the meeting being called to order at 2:30 P. M. Eighteen members and visitors were present as well as Dr. H. C. Bamford of Smithers, Member of the Advisory Board for District C, Mr. S. S. Phillips, District Agriculturist, Smithers, and Mr. W. J. Bonavia, Superintendent of Farmer's Institutes, Victoria Seven Farmer's Institutes out of the twelve comprising the district were represented at the meeting.

Mr. W. J. Turner took the chair and in his opening remarks referred to changes that had taken place in the Department of Agriculture and also to the appointing of a separate Superintendent for the Farmer's Institute the office having formerly been included with that of the Deputy Minister.

Mr. S. S. Phillips was appointed secretary of the meeting. He then read the minutes of the previous Convention with the list of resolutions as passed. After some discussion the minutes were adopted as read. Mr. Turner then read the financial statement for the year pointing out that only two institutes in District B had paid up the per capita levy for the District expenses. It was evident from remarks made by some of the delegates that the newer Institutes in the district did not appear to know about this matter and it was suggested that the Secretaries be notified. Mr. Turner then outlined the doings of the Advisory Board at the December 1928 meeting in Victoria referring to resolutions sent in from the district and the action that had been obtained.

With regard to the tie situation an interesting letter was read from Mr. W. J. McLaren, Inspector of the C. N. R., re. the making of direct contracts for ties with settlers.

Reference was also made to Mr. C. E. Whitney-Griffiths resignation. The opinion being expressed that the matter should not have been aired in the press it being entirely within the functions of the Advisory Board to handle the situation.

Mr. Turner also read a letter and copy of a resolution from the West Kootenay district relative to this matter. After some further discussion a delegate suggested that the matter of Mr. Whitney-Griffiths resignation should not take up any more time of the meeting. This was carried.

Mr. C. W. Little of Woodcock then moved the adoption of Mr. Turner's report, which was seconded and carried.

Noxious Weeds.

Some questions were asked about the increasing menace of weeds in the district. It was pointed out that no action in controlling weeds had been taken by the C. N. R. along their Right of Way and the secretary was instructed to take the matter up further with the proper authority. It was pointed out that in the eastern section of the Dominion a special spraying device had been attached to engines and had done effective work in controlling weeds on the Right of Way.

Coyote Bounty

Messrs. C. J. Killer and F. M. Dockrill spoke on this matter in view of the press notices that had appeared recently relating to the cancellation of bounties, by Mr. Brian Williams, Game Commissioner. Mr. Dockrill pointed out that during the past year the cost of these bounties paid out had been less than in previous years.

Coyotes now leave the backwoods and hang around the settlement, and apparently the farmers fight for years to obtain these bounties for the protection of their stock, would have to be done all over again. Dr. R. C. Bamford read a copy of a wire which had been sent to the Honorable William Atkinson, minister of Agriculture, protesting against the removal of bounty on coyotes.

Mr. Bonavia then gave an address on Institute activities during the past year, pointing out that there was now one hundred and seventy-five Institutes in active operation with a membership of six thousand five hundred.

Good co-operative work has been done by a large proportion of these Institutes for their members along the lines of buying such items as feed, flour and fertilizer, hardware, Cyanogas for gopher destruction and other items. Mr. Bonavia also referred briefly to Legislation which had been passed at the recent Session which affected the Agricultural industry. In concluding his remarks, Mr. Bonavia assured the meeting of the entire support of the staff of the Department of Agriculture of the farming industry and pointed out that the success of the

Department was coincident with that of the farmers.

Re. Brand Inspection

Mr. W. C. Little made some remarks about issuing brand inspection certificates in his district on the Skeena River. He thought that the inspection fee of 25 cents was unnecessary and that it might be removed. A general discussion followed with regard to getting better facilities for the issuing of brand inspection certificates. It was suggested that Institute secretaries or J. P.'s might be appointed to issue these certificates so as to avoid delay. After a thorough discussion of the matter, Mr. S. S. Phillips was asked to take the matter up with the Recorder of Brands, Victoria.

The Election of Officers

Mr. A. Beck referred to the first Convention held in the district when the suggestion was made that the various Institutes should supply in turn, the Advisory Board Member. The opinion of the meeting appeared to be against this proposal and nominations for the Member of the Advisory Board were called for. Mr. Turner and Mr. Dockrill names were put up, Mr. F. M. Dockrill then asked to withdraw his. After being duly seconded and carried, Mr. J. W. Turner was again elected Member of the Advisory Board. Mr. C. J. Killer was elected as alternate member.

The other officers were as follows: President of District B, F. M. Dockrill; Vice President, J. G. Donaldson; Secretary, S. S. Phillips; District Agriculturist, Directors: All the Secretaries of the Farmer's Institutes in District B were automatically elected as directors for the district.

Re. Market for Turnips

The Secretary read a letter from Messrs F. R. Stewart, Vancouver with regard to the group shipment of turnips made to the coast. The letter stated that seventy-five sacks of the shipment had been thrown out owing to their bad condition and considerable expense had also been incurred for trimming and other handling charges. Whilst \$23.75 per ton had been offered on the strength of the samples sent the poor quality of the carload consignment had lost a market and given a bad name to growers in the district. The Coast market requires turnips of not more than four pounds each and strict grading is essential. There was a feeling that turnip seed should be grown in the district and standardized.

Resolutions

Re Bounty on Coyotes—The chairman at this point, suggested that a Committee be appointed to draft the resolution relative to the removal of the coyote bounty, and forward same by wire to the Hon. Minister of Agriculture. The Committee appointed consisted of F. M. Dockrill, W. C. Little, C. J. Killer and Mr. A. Beck.

Re making farm products—This matter which is one of serious consequence to producers in Central British Columbia, was discussed by several of the delegates. Messrs Greene, Dockrill, Little, Killer and Beck, all contributed interesting data and opinions on the subject. Mr. Beck gave specific instances of where the large wholesale firms had quoted a lower price to local dealers for commodities than the actual price listed in their publications.

In reply to question Dr. R. C. Bamford stated that similar conditions were reported as to marketing produce a fair market price in district C and had been discussed at length at the recent Convention. It was evident there was much competition between producers in their own localities. As a partial solution Mr. Bamford suggested that Mr. Phillips might get prices during the season from various wholesalers, merchants and leading producers and should arrange to publish same in the newspapers circulating in the Valley.

This was put to a resolution and carried.

Re Prince Rupert elevator—Considerable discussion arose with regard to the failure of the elevator at Prince Rupert to function the past season. It was pointed out that considerable hardship and loss of business in the district had resulted from the action of the Pool in closing down the elevator. A resolution was drawn asking the Dominion Government to remove any difficulties which hindered the shipping of grain through the Prince Rupert Elevator. This was carried unanimously.

Re Elevator Screenings—Mr. A. MacMillan referred to the value of screenings as feed for hogs, sheep and cattle in the valley. He thought that a

grinding or crushing plant might be put in at Prince Rupert by the Government. F. M. Dockrill stated that from an analysis of a sample of screenings sent to Ottawa that the feed value of same was shown to be equal to that of oats. He felt sure that the use of properly ground screenings would double the live stock production in this valley. Mr. Bonavia advised the meeting that regulations were now being drafted by the Department in connection with the movement of the screenings within the Province. Proper precautions would have to be taken of course, with regard to grinding etc. so that there would be no danger of the spreading of noxious weeds. After some further discussion the matter was filed for discussion at a further meeting.

Re. Fences on C. N. R.—A complaint was made by the delegate from the Forestdale District that the C. N. R. fences were not keeping out sheep from the Right of Way in the district. The Secretary was instructed to write to the proper authority.

Dr. R. C. Bamford then addressed the meeting with regard to the Smithers Fall Fair to be held on August 21st, 22nd, 23rd. He especially referred to the Farmers Institute district prizes which were a special feature of the prize list this year. He hoped that the delegates from the various Institutes present would go back to their districts determined to support the Smithers Fair to the best of their ability and to send in a district exhibit. There was every evidence that the Fair this year would be the best on record. Prize Lists would be available very shortly.

The place and time for the next annual Convention of District B was decided to be at Telkwa during the month of June. The exact date to be settled later by the executive. A motion to adjourn was then put and carried.

Delegates present at Farmers' Institute Convention, Telkwa, June 20, 1929. Telkwa—F. M. Dockrill, D. J. Killer, J. G. Donaldson.

Smithers—J. W. Turner, G. Oulton, F. Foss, B. Nelson, Wedge Evelyn—J. Owens, A. MacMillan.

Hazelton—R. S. Sargent. Houston—T. T. Aitken. Woodcock—W. C. Little.

Quick—A. G. Greene, H. A. Beck. Forestdale—A. G. Sturgeon, W. W. Hawthorn.

Also—S. S. Phillips, District Agriculturist, W. J. Bonavia, Superintendent Farmers Institute.

to the child to start off with the idea that he has the ability and that school failure is his own fault. In justice to the child, his capacity as well as his application must be considered.

The child who has difficulties can be helped, but if he is to receive such help his difficulties must be understood.

Amos Godfrey, well known here a dozen and a half years ago when the Groundhog coal fields were at the peak of their boom, was killed recently in the Princess May mine, McDames Creek, Cassair.

The Omineca Herald is \$2.00 a year.

Albert Mercer went to Smithers on the first of July in his new car. He is a comparatively new driver and has not got next to all the kinks necessary for safe navigation. He was going at a pretty good hickory and tried to get around a corner near Lake Kathlyn, but came to grief when he found a big stump in his path. He was able to drive into Smithers but had to leave his car there for repairs and straightening out.

Mrs. Hindle and daughter will leave Thursday morning for Vancouver for a holiday of several weeks.

PUBLIC OPINION

Nowadays is bitterly hostile to any form of foolishness which endangers life and property. The Reckless Driver, the Man Who Rocks the Boat, the Man Who Didn't Know it was Loaded, are gradually disappearing under pressure of public opinion. The Man Who is Careless with Fire is the greatest menace of them all. Let public opinion focus upon him.

BRITISH COLUMBIA FOREST SERVICE

Advertised Goods Are Lower

ADVERTISING turns over stocks rapidly, and therefore multiplies profits. This means that prices in a shop which advertises can be short rather than long.

Of this you may be sure: Prices in a shop which advertises are not MORE than in a shop which does not advertise. The chances are that they are oftentimes lower.

This, also, is generally true: You will find better goods, better values and better service in those shops which turn over their stocks rapidly. This means, as a general thing, shops which advertise.

A NOTE TO MERCHANTS

Advertising costs you nothing—it is paid for by the profits of increased sales.

Advertising is easy—it is simply saying in writing what you say to your customers in your shop. Turn over stocks quickly, if you would make more money.

Read the Advs. Then Shop

Health Service

Questions concerning health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered by letter. Questions as to diagnosis and treatment will not be answered.

SCHOOL EXAMINATIONS

At this time of the year, many parents are worried over the failure, or comparative failure of their child in his school examinations. It is quite natural for the parent to desire to see his child excel. The parent looks upon school work as the basis of success in life, and is, therefore, more than interested in school success as seen in examination reports.

It is quite that children differ in their physical powers; This is so apparent that no one questions that it is so. Parents understand that their child is physically weaker than or stronger than his playmate, and that even among their several children, there is considerable variation in this respect. Yet these same parents, in many cases, refuse to consider that there is just as great variation in the mental capacity of children as there is in their physical capacity.

The objective of education is to develop the inborn or natural ability of the child. If the natural ability is lacking, it cannot be placed there by the school.

In considering the failure of the child we are not suggesting that it is, in all cases, due to lack of ability of intelligence. It may have been due to irregular attendance, sickness, lack of application to his work on the part of the scholar, and in a few cases, to poor teaching. We bring out these various points because the interested parent instead of worrying, should search for the reason in his child's case, in order that it may be properly dealt with. In searching for the reason, it is not fair
